

DAAN ROOSEGAARDE

Dutch artist and innovator Daan Roosegaarde (1979) is a creative thinker and maker of social designs which explore the relation between people, technology and space. Roosegaarde has been driven by nature's gifts such as light emitting fireflies and jellyfishes since an early age. His fascination for nature and technology is reflected in his iconic designs such as Smart Highway (roads which charge from sunlight and glow at night), Waterlicht (a virtual flood) and Smog Free Project (the first smog vacuum cleaner in the world which makes jewellery from smog).

Roosegaarde graduated from The Berlage Institute with a master in architecture. He founded Studio Roosegaarde in 2007, where he works with his team of designers and engineers towards a better future. Together they develop 'Landscapes of the Future' building smart sustainable prototypes for the cities of tomorrow. Roosegaarde is a Young Global Leader at the World Economic Forum and named Artist of the Year 2016 in The Netherlands.

Roosegaarde has won the Design Project of the Year Dezeen Award, the Grand Award for Sustainability and the Gold Award at the Design for Asia Awards, the Media Architecture Award 2018, the London Design Innovation Medal, the INDEX Design Award, the World Technology Award, two Dutch Design Awards, the Charlotte Köhler Award, and China's Most Successful Design Award. He exhibited at the Design Museum in London, Stedelijk Museum Amsterdam, Rijksmuseum Amsterdam, Tate Modern, Tokyo National Museum, Le Musée des Arts Décoratifs Paris, Victoria & Albert Museum and various public spaces in Europe and Asia. Selected by Wired, Forbes and Good 100 as a creative change maker, Daan Roosegaarde shares his visionary ideas frequently at conferences across the world such as TED and NASA.

**Born in Nieuwkoop, the Netherlands (1979).
Works and lives in Rotterdam (NL) and Shanghai (CN).**

Education

2003-2005, Berlage Institute, Postgraduate Architecture, Rotterdam, NL.

2001-2003, Academy of Fine Arts, Enschede, NL (Cum Laude).

1997-1999, Arnhem Institute for the Arts, Arnhem, NL.

Awards

Design Project of the Year Dezeen Awards, UK.

Lighting Design Dezeen Award 2018, London UK.

Media Architecture Award 2018, Beijing, CN.

Innovation by Design Awards Honorable Mention for

Gates of Light, Fast Company, New York, USA.

Sustainability Ribbon from the Dutch Government, The Hague, NL.

Platinum Award for Gates of Light, A' Design Award and Competition, Como, IT.
